

Oliver Felix Eberle

eMail address:

oliver.eberle@hhu.de

Nationality:

German

Phd student at:

Institute of Molecular Pathogenicity
<https://www.molpath.hhu.de>

Main supervisor:

Prof. Dr. Miriam Kutsch

Project title:

Characterization of the tertiary GBP-LPS-CASP4 complex

Research focus:

My research will focus on molecular infectious biology.

**Personal interests
& motto:**

Everything happens for a reason.

**Advantages of being
a MOI V fellow:**

The MOI graduate school provides unparalleled networking opportunities and a comprehensive scientific curriculum that includes stay abroad programs, lab rotations, symposia, and workshops. This allows you to gain deep insights into diverse research areas and advanced lab techniques, thus acquiring an interdisciplinary skill set.

MOI V fellow since:

04/2024
